GPMS513: GENDER AND DISASTER MANAGEMENT

1. Using examples analyse the gendered roles played by different gender groups during and after catastrophic storms.
2. Assess the applicable principles of disaster management to mitigate the effect of pandemics in developing countries.
3. Examine the gendered consequences of climate change on food security in southern Africa.
4. Evaluate any two priorities for action of the Sendai Framework For Disaster Risk Reduction (2015-2030) illustrating their relevance to disaster management policies of developing countries.
5. Examine the importance of indigenous knowledge systems in mitigating the negative effects of drought and water scarcity on vulnerable groups in developing countries.
