MONITORING AND EVALUATION**

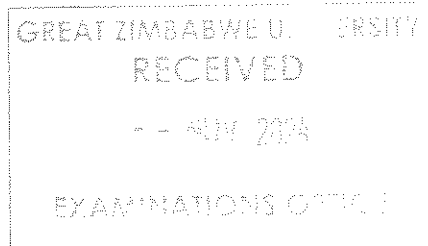

LEVEL 1 SEMESTER 1

EXAMINATION QUESTION PAPER

MODULE CODE	PDPME 105
MODULE NARRATION	RESEARCH METHODS IN M&E
DATE	2024
DURATION	3 HOURS

INSTRUCTIONS TO CANDIDATES:

- 1. ANSWER 3 QUESTIONS ONLY.**
- 2. EACH QUESTION CARRIES 25 MARKS**

1. You are a Research and Knowledge Management Officer for an NGO that focuses on girl child rights. The organisation is running a project focusing on ending child marriages and promoting girl child education. You have been tasked by your director to conduct a midline evaluation of the project. You strongly feel that a qualitative evaluation design is better than a quantitative evaluation design favored by your boss. Convince your boss. (25)
2. Mozambique, Zimbabwe and Malawi have recently been affected by Cyclone Idai leading to deaths, displacement and loss of property especially in Mozambique. You are called in as a Research, M&E expert to provide a needs assessment. Clearly show how you are going to execute the task. (25)
3. You have been hired as an expert in data analysis by some organisation to help them convert their raw data into intelligent information and knowledge. Generate a write up which identify a type of data analysis chosen, why it was chosen and how data will be analyzed. (25)
4. You are working for an organisation with interests in women empowerment. The organisation has recently won a US\$500 000 grant to assist the girl children in orphanages. As the Head of the M&E Unit for the organisation, come up with a girl child sensitive ethically modelled M&E policy for your unit. (25)
5. 'Geographical information systems (GIS) has become an indispensable tool in the monitoring and evaluation circles.'
 - i. Write a discussion paper showing the importance, applicability of GIS technologies in monitoring and evaluation.
 - ii. Hint why GIS is not being used by most organisations. (25)
